ABOUT US

COMPREHENSIVE SERVICE FROM BEGINNING TO END

At CoverWorks, our dedicated team of craftspeople, product specialists, service-oriented project and account managers, technical engineers and other skilled professionals provides end-to-end solutions, from concept design and development to full-scale production.

With advanced in-house technology, and strong focus on customer service, quality and sustainability, we've earned global recognition for our expertise in designing, developing and delivering high-end upholstery, soft goods and textile solutions across the luxury, industrial and medical sectors.

We believe in close collaboration with our clients, working alongside you every step of the way to ensure each product meets the highest standards and aligns perfectly with your vision and requirements.

CUSTOM SEATS TO BOOST PERFORMANCE

Custom-fitted & 3D Printed Ocean Rowing Seats that provide unrivalled performance and comfort throughout your journey, no matter the distance.

D³

CREATING YOUR ROWING SEAT WITH A FLICK OF THE WRIST

We've reimagedined the traditional rowing seat into a performance-enhancing, ergonomically advanced product. Developed in collaboration with TU Delft and guided by a data-driven approach, our 3D-printed design delivers measurable improvements in both comfort and performance.

Consultation

Discuss your seating needs in a free consult.

01

Seat Fitting

Your posture and measurements are moulded on the erg (on-site or abroad).

02

3D Modelling

Moulds are scanned into 3D models and optimized.

03

Production

Printed in durable, lightweight polyethylene (PE).

04

Upholstery

Covered in Dartex or Airmesh with Velcro base.

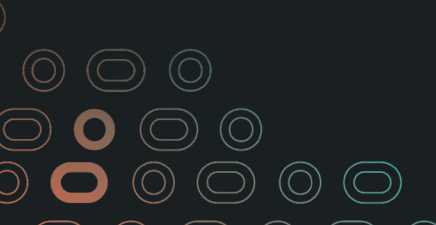

05

Delivery

Ready within 3 weeks for your next adventure.

06

ROWING SEAT FACTS

- ✓ 18.6% reduction in peak pressure compared to conventional seating.
- ✓ Increased ventilation with open-pore structure and hypoallergenic fabrics.
- ✓ Optimized to fit a variety of seat bases (ask upon enquiry).

DESIGN. DEVELOP. DELIVER.

Our Design, Develop, Deliver approach is the foundation of everything we do. What does working with us mean for you? It is about more than simply manufacturing your product, it means guiding and supporting you throughout the entire process, from the first discussion of your ideas to the moment your product is ready to use, and everything that must happen in between.

01 DESIGN

This journey begins by understanding your ideas, needs and requirements in full. This gives you a clear plan and concept that align with your vision. By combining your perspective with our market knowledge and user insights, we translate your ideas into functional and practical solutions.

02 DEVELOP

At this stage, every element of the design is refined. Prototypes are produced and rigorously tested to ensure that performance, comfort and aesthetics meet and exceed your expectations.

03 DELIVER

Whether for small-scale production or global rollouts, we oversee manufacturing, logistics and quality control from start to finish, ensuring that your products are delivered on time and ready to use.
