CINEMA SEATS

CRAFTING YOUR CINEMATIC EXPERIENCE

Elevate your maritime projects with custom Cinema Seats that redefine comfort, luxury and the onboard movie experience. At CoverWorks, we're more than just partners in bringing creative visions to life, we also specialize in delivering practical solutions without sacrificing aesthetics or comfort.

When engineering our Cinema Seats, we dedicate careful attention and effort to ensure they move in perfect harmony with the body. This guarantees you remain comfortably positioned without the need for constant adjustment.

A standout example is our in-house designed frame. This bespoke frame not only maximizes comfort but also overcomes the limitations of traditional designs. Cleverly engineered to address spatial constraints, especially in back-row areas, our seats feature an additional 20 cm of recline, providing flexibility and efficient use of space without compromising comfort, aesthetics or luxury.

D3

DESIGN. DEVELOP. **DELIVER.**

Our Design, Develop, Deliver approach is the foundation of everything we do. What does working with us mean for you? It is about more than simply manufacturing your product, it means guiding and supporting you throughout the entire process, from the first discussion of your ideas to the moment your product is ready to use, and everything that must happen in between.

01 DESIGN

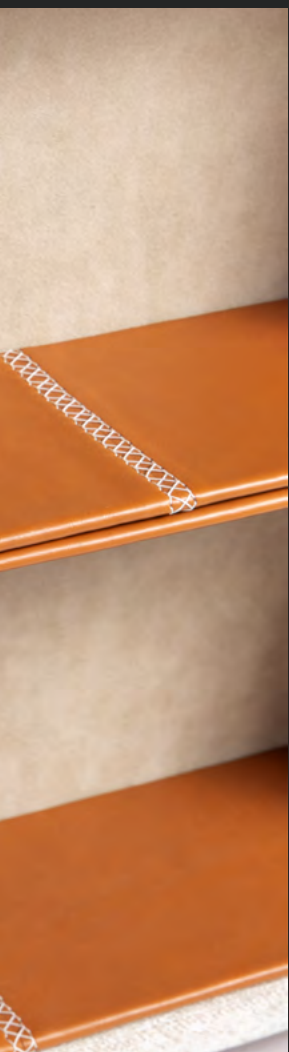

This journey begins by understanding your ideas, needs and requirements in full. This gives you a clear plan and concept that align with your vision. By combining your perspective with our market knowledge and user insights, we translate your ideas into functional and practical solutions.

02 DEVELOP

At this stage, every element of the design is refined. Prototypes are produced and rigorously tested to ensure that performance, comfort and aesthetics meet and exceed your expectations.

03 DELIVER

Whether for small-scale production or global rollouts, we oversee manufacturing, logistics and quality control from start to finish, ensuring that your products are delivered on time and ready to use.

INNOVATIVE TECHNOLOGY SOLUTIONS

At CoverWorks, we specialise in turning your architectural vision into reality. Provide us with your 3D design, and our team will expertly integrate it with our advanced framing and technical solutions to craft a seamless, functional end product. We handle all the challenges and details, from integrating various features to ensuring that every feature works perfectly within your design.

Partner with us to see your design concepts come to life with precision and excellence, creating seating solutions that meet and exceed your expectations.

CUSTOM SEATS TO ELEVATE YOUR DESIGN

Elevate your maritime projects with custom Cinema Seats that set new standards in comfort and luxury.

CoverWorks is the ideal partner to transform your creative vision into reality. We specialise in crafting seats that seamlessly integrate with your yacht design. By combining the latest techniques with our custom-built frame, we create seats that offer unparalleled comfort and quality.

Let us help you create a cinematic experience that stands out. The possibilities are endless!

ERGONOMICS AND COMFORT

Each chair is engineered to move in perfect harmony with the body's movements, ensuring you remain comfortably positioned without shifting. We've taken comfort to the next level by designing our own custom frame, allowing for precise ergonomic adjustments tailored to the needs. This bespoke frame not only enhances overall comfort but also addresses the limitations of traditional designs.

With an additional 20 cm of recline, our seats provide greater flexibility and support, especially in the back rows. Enjoy a movie experience with seating that adapts to you, offering supreme comfort and a truly immersive experience.

WE MAKE IT HAPPEN

CoverWorks proudly features a dynamic team of specialists dedicated to delivering exceptional quality to our clients daily. Our design department excels in creating bespoke solutions tailored to your vision, while our skilled upholsterers focus on merging aesthetics, functionality and comfort to perfection. Exclusively employing the finest materials and techniques, they enhance the appearance of the Cinema Seats.

Supported by our project and account managers, who serve as your primary point of contact throughout the project, our team operates in perfect harmony to bring your vision to life from start to completion.
